

CONCEPT AIR

WHEN LIGHTNESS DESIGNS SPACE

CONCEPT AIR WHEN LIGHTNESS DESIGNS SPACE

At Ideal Standard, we believe that a bathroom should be a living space, giving you more than just somewhere to brush your teeth. For the past 100 years, we've been creating products that transform a purely functional space into the ideal bathroom – a place to relax, make yourself beautiful, refresh and re-energise.

Taking inspiration from nature, the butterfly creates an inspiring atmosphere of lightness. Developing the design philosophy of our ever-popular Concept range, Concept Air is the next generation of a refined aesthetic that brings unprecedented elegance to the bathroom. Create an inspiring atmosphere of lightness with Concept Air.

For further inspiration visit
www.ideal-standard.co.uk

FEELING AS LIGHT AS AIR

With its fine edges, crisp corners and slim, tapering profiles, Concept Air breathes an uplifting sense of lightness into any space.

Concept Air is the epitome of gossamer fineness. Its weightless beauty gives pleasure to the eye and joy to the spirit. While supremely delicate in form, Concept Air is, above all, robust and functional – performing brilliantly in the modern bathroom.

DESIGNED BY STUDIO LEVIEN

Our ever-popular Concept range was developed by award-winning designer Robin Levien and his acclaimed team. By building on the intrinsic design DNA of Concept, they've taken a classic to the next level – creating the refined evolution we call Concept Air.

Products featured; Concept Air 55cm washbasin with dedicated Cube unit in Light Brown Wood and matt brown finish with single soft close drawer. Concept Air close coupled AquaBlade® WC with dual flush button cistern and thin, slow close seat with quick release hinges. Concept Air right handed shower bath with shower bath screen with access panel.

A LIGHT TOUCH OF SPACE

From the sculptural ceramic elements to the stylish complementary furniture, the theme of elegance is expressed in every piece. But when you select the free standing bath, you're turning your bathroom into a zone dedicated to luxury.

The combination of our open shelf vanity unit with worktop and smaller Vessel Basin lets you continue the luxurious look while refining it for a smaller space.

Products featured: Concept Air 40cm vessel basin with 60cm wall hung vanity unit with one drawer and one open shelf in Light Brown Wood and Matt Light Brown and matching worktop. Concept Air back-to-wall AquaBlade® WC with thin, slow close seat with quick release hinges. Concept Air free standing bath. Tesi tall single lever basin mixer and dual control bath filler.

Products featured; Concept Air 104cm Vanity basin with dedicated furniture unit in Gloss white and grey finish. Concept Air close coupled, back-to-wall AquaBlade® WC with dual flush button cistern and thin wrap, slow close seat with quick release hinges. Tesi single lever basin mixer and dual control bath filler.

A DESIGN EVOLUTION IN FOUR FORMS

Concept Air's alluringly sleek look manifests itself in four basin shapes: Vanity, Vessel, Pedestal and Semi-countertop. These distinct options are designed to offer flexibility of installation and variety in style. While each offers the same crisp elegance, each makes a decisively individual design statement.

The increasingly popular double basin format is perfect for larger bathrooms. Our 124cm Double Vanity Basin loses none of Air's characteristic elegance while offering added dimension of personal luxury. The dedicated furniture units are available with four drawers or two drawers and open shelves.

With its slim profile, thin rim and tapering form, the Concept Air Cube washbasin shows off the essence of the range's design in all its purity. But its shallow profile conceals a luxurious internal depth. Cube basins can work with full and semi-pedestals and a range of dedicated cube units for all sizes. Cube is modern elegance personified.

The unsupported overhanging bowl of the 50cm Semi-countertop Basin lends an additional sense of weightlessness to the overall effect. It sits within its companion piece: the Floor Standing Semi-countertop Unit. Choose from one of our complementary ranges for the perfect mixer tap, such as the Tesi Mixer, shown here.

Concept Air's Vanity Basins come in a variety of sizes and formats. They can be combined with Concept Air's tailor-made wall hung vanity units with two soft closing drawers or one drawer with opening shelving for a minimal look. Flexibility is another of Air's brilliant qualities.

The Concept Air Cube Vessel Basin is a celebration of fine lines and fine ceramics and transforms a bathroom into a spa-like sanctuary. It's available in two sizes and can be married with the accompanying vanity units or placed on your own worktop.

PART OF THE FAMILY

A family bathroom can be equally fun, fast and furious. Firstly, the space must perform to perfection, but there's no reason why it shouldn't be beautiful too.

The Concept Air range is endlessly adaptable – by choosing the Shower Bath and a Vanity Basin, you achieve practicality and elegance in one. And the roomy drawers of the Cube or Vanity units help to keep family clutter well hidden.

Products featured: Concept Air 60cm Vanity basin with 60cm two drawer furniture unit in wood light grey. Concept Air close coupled AquaBlade® WC with thin wrap, slow close seat with quick release hinges. Concept Air right handed shower bath with shower bath screen with access panel and Concept Easybox Slim built-in thermostatic shower with Idealrain Cube M3 shower kit. Tesi single lever basin and dual control bath filler.

With Concept Air, ceramics and furniture unite in harmonious beauty; the linear framed design exhibits fine edges and a clean, graphic character. To uphold the minimal look, the handles are recessed behind the top of the drawers or doors.

THE NEXT GENERATION OF STORAGE SOLUTIONS

In so many bathroom design projects, furniture is an afterthought. But to create that beautiful streamlined look, efficient storage is a must. Concept Air offers a fully comprehensive bathroom solution. Our wide range of complementary furniture demonstrates efficiency in function, flexibility in arrangement and variety in style.

When choosing Concept Air furniture, you can specify open shelves or, to keep your space supremely calm, opt for spacious soft close drawers. Practical can be beautiful.

DESIGNED BY STUDIO LEVIEN

Like the ceramic pieces, Concept Air furniture is the creation of Studio Levien and perfectly reflects the fine lines that are the hallmark of the range.

FULLY FLEXIBLE STORAGE

Your bathroom, and the way it needs to function, is as individual as you are. A wide furniture choice is the key to making the space exactly right for you.

Concept Air offers a seemingly infinite choice of furniture formats, sizes and finishes. You can also choose between open shelving and drawers, and there's an inspirational variety of colours and finishes.

The floor standing units cleverly conceal plumbing as well as offering a practical storage space with an internal shelf for your cleaning products and toiletries.

ALL BATHROOMS GREAT AND SMALL

With a wide selection of unit sizes, Concept Air will fit snugly into compact bathrooms as well as gracing the grandest of spaces.

Our mini vanity basin unit is tailor-made for cloakrooms. Its large single drawer provides ample storage to keep things neat where space is a premium.

FURNITURE COLOURWAYS

Choose from six colour combinations, from the subtle pairing of Gloss and Matt White to the exciting contrast of luscious Matt Dark Brown against the Matt White.

A LIGHT TOUCH FOR THE SMALLEST ROOM

The sense of lightness that comes from Concept Air's fine lines and tapered profiles make it perfect for spatially challenging rooms, like cloakrooms.

With a basin that extends just 38cm from the wall, the short projection vanity unit is spot on for cloakrooms and offers a surprisingly generous storage solution.

Our small 40cm handrinse basin is an ideal solution for limited space. Take your pick from our wall hung, semi or full pedestal options, or, when storage is required, the short projection mini vanity basin is king.

Products featured: Concept Air short projection 54cm Vanity basin with 50cm furniture unit in matt dark brown. Concept Air back-to-wall AquaBlade® WC with thin, slow close seat with quick release hinges. Concept small single lever basin mixer.

Products featured; Concept Air 60cm vessel basin with 80cm wall hung vanity unit with two drawers in Gloss White and Matt Grey and matching tall column unit. Concept Air free standing bath. Tesi wall mounted single lever basin mixer and Tesi dual control bath filler.

MAKE A STATEMENT

Where there's room to express yourself, Concept Air rises confidently to the occasion. The free standing bath makes a stunning centrepiece, and the large Vessel Basin is its perfect partner.

Their soft arc tapering sides bring a quality of sculptural grace to the space. And with our vast range of furniture pieces, it's simple to achieve your optimum storage situation.

SLIMLINE AND FREE-FORM

INTEGRATED TAP DECK

The tap deck runs along the full length of one side, giving you freedom to position fittings as you wish as well as providing a convenient place to stand toiletries.

CRAFTED FOR COMFORT

The gentle tapering shape of the bath provides perfect back support while the sloping rim supports the neck. And the thin rim equates to a greater internal volume for an indulgent bathing experience.

FREE AND EASY

Free standing means you have the luxury of positioning the bath anywhere in the room, including a corner or alcove. To aid installation, the bath comes in two pieces, with the brassware and waste easily accessible.

MULTI-FUNCTION ULTRA-LIGHT

The Concept Air shower bath is beautifully light in design while giving you all the versatility you desire, and the soft arcing backrest provides the ultimate in bathing comfort.

The sleek yet practical bath screen features a handy hinged access panel that enables you to turn on the shower before you get in, without getting wet or overreaching. And, when you've finished, it's so much easier to grab a nearby towel.

MATCH A CONCEPT BATH WITH CONCEPT AIR

TAPS & MIXERS TO COMPLETE THE LOOK

Add the finishing touch to your Concept Air basin and bath with taps and mixers from our Concept, Attitude, Tempo and Tesi ranges. Designed by Artefakt, the Tesi basin mixer, shown here, is an inspired fusion of geometric lines and rounded forms – the perfect match for Concept Air's elegant linear style.

As an evolution of our original Concept range, Concept Air is perfectly compatible with elements from that range, including the stylish double-ended Concept bath.

SMART SPACES FOR ACTIVE LIVES

For a busy modern lifestyle, a bathroom should, primarily, be efficient. Within the Concept Air range, you'll find the products that deliver maximum functionality as well as maximum style.

Rarely have time for the indulgence of a bath? Then the shower bath is the logical solution. And if your bathroom regime is streamlined, then opt for the clean simplicity of our pedestal basin.

Products featured: Concept Air Cube 55cm washbasin shown with full pedestal. Concept Air close coupled, back-to-wall AquaBlade® WC with thin, slow close seat with quick release hinges. Concept Air right handed shower bath with shower bath screen with access panel.

AHEAD OF THE CURVE

We've embraced the elegant qualities of the original Concept range and refined them further to create an ultra-slimline style.

Combine the elegantly tapering bowl and extremely thin soft close lid with our unrivalled, hygienic AquaBlade® technology, and it's clear that Concept Air WCs are an exemplar of innovation and design. Further benefits include a choice of installation styles and seat types.

For a minimalist look, Concept Air offers back-to-wall and wall hung WCs. And, depending on your installation requirements and flush preference, there are also concealed frame or concealed cistern options.

The Concept Air range features two close coupled WC options: fully back-to-wall or open backed. The choice is down to personal preference or it's dictated by installation type. The elegant cisterns feature a slim lid and dual push button. Water saving options are also available.

TWO SEAT STYLES

While each has its distinct style, our two different seat designs reflect the same slim aesthetic of the ceramics. Both come in standard or soft close options and benefit from an easy-take-off feature for easy maintenance and cleaning.

AQUABLADE® A NEW ERA IN FLUSH TECHNOLOGY

Ideal Standard's fresh approach to design is driven by insights into the changing needs and expectations of customers. This forward-focused strategy is perfectly demonstrated by our exclusive AquaBlade® Technology – a true innovation in flushing performance.

And we're delighted to announce that this design won the Gold Award for Innovation In Sustainability at the Designer Kitchen & Bathroom Awards 2015. This accolade is highly respected across the interior design industry, and we're proud to be creating award-winning technology, right here in the UK.

REFINED IN STYLE AND FUNCTION

AquaBlade® Technology and Concept Air were made for each other. It's a perfect marriage of clean lines, contemporary styling and innovative performance. With no unsightly rim, all you see is Concept Air's smooth curves.

www.is-aquablade.com

UNRIVALLED HYGIENE

AquaBlade® Technology outperforms all existing toilets in terms of hygiene.

Traditional toilets leave a significant area of the bowl unwashed, particularly at the back of the bowl. The AquaBlade® channel is positioned close to the top of the bowl so 100% of the surface area beneath is rinsed clean every time. With AquaBlade® Technology, the optimised water pressure and smooth curves of the bowl flush bacteria clean away with no unhygienic splashing. The bowls are also very easy to clean, with no overhanging rim to hide potentially dirty areas.

ADVANCED DESIGN

All Concept Air WCs feature AquaBlade® Technology, and this innovative functionality perfectly complements Concept Air's sleek design aesthetic. From the slim tapering bowl to the distinct ultra-thin seat and rimless interior, Concept Air WCs represent nothing less than a revolution in bathroom design.

Both the built-in cistern and close coupled options make a beautifully elegant statement of contemporary design. The wall hung bowl features completely hidden fixings for that beautifully seamless look.

ELEGANCE IN THE EN-SUITE

For a busy modern lifestyle, a bathroom should, primarily, be efficient. Within the Concept Air range, you'll find the products that deliver maximum functionality as well as maximum style.

Rarely have time for the indulgence of a bath? Then the shower bath is the logical solution. And if your bathroom regime is streamlined, then opt for the clean simplicity of our pedestal basin.

Products featured; Concept Air 124cm double vanity basin with 120cm four drawers unit in gloss grey and matt white with matching tall column unit. Synergy wetroom panels with Concept Easybox Slim built-in thermostatic shower and Idealrain Dual Rainshower. Tesi single lever basin mixers.

PERFECT PARTNERS

When it comes to choosing a shower to cohabit your space, Concept Air has many potential partners. To maintain visual consistency, we recommend our Synergy wetroom panels, Kubo shower enclosures and our innovative Easybox Slim thermostatic mixer.

TOTAL SYNERGY

Synergy wetroom panels make the most of your shower space for a sense of total freedom. Choose from a broad range of panel sizes to create your ideal corner access, alcove or dual-entry wetroom.

AIR MEET KUBO

Just like Concept Air, our Kubo shower enclosures are sleek, modern and made from high-quality materials. Kubo is versatile too; it comes with quadrant, pivot, slider, bifold and corner entry door systems and in a variety of sizes to suit your space.

Concept Easybox Slim is our ingenious thermostatic shower mixer system. Its unique shallow design makes it ideal for modern wall cavities. Flow performance is assured by ceramic disc control, and the separate temperature control includes a built-in safety stop feature.

BASINS

TESI TAPS & MIXERS

Concept Air shares key stylistic qualities with many other Ideal Standard products. We recommend the taps and mixers from our Concept, Attitude, Tempo and Tesi ranges. For example, Tesi's comprehensive range of basin and bath mixers are slim, clean and contemporary in design – perfectly reflecting the essence of Concept Air.

Guarantee

Our confidence in the quality and reliability of Ideal Standard products enables us to guarantee many of them for a lifetime. Our guarantee is offered on all products that have been used in the manner for which they were intended, and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water bye-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation.

1. All ceramic products are guaranteed for a lifetime.
2. Idealcast and Idealform acrylic baths are guaranteed for 25 years from date of purchase.
3. Showers, bath panels, furniture, mixers and taps, WC suite seats and cistern fittings are guaranteed for five years from date of purchase. (Cistern and shower door seals are not included. Replacements can be found on our Fastpart website: www.fastpart-spares.co.uk).
4. Shower enclosures and bath screens are guaranteed for ten years and shower trays for 25 years.
5. Parts (including push button flush valves and blower power packs on Whirlpool baths) are guaranteed for five years and will be replaced if found to be faulty.
6. Cistern diaphragms, seals and shower seals are not included. Replacements may be purchased through our parts supply service.
7. When your bathroom has been satisfactorily installed and is working well, please ensure you register your guarantee.
8. The guarantee is transferable 'it applies to the product not the purchaser' provided guarantee registration details are passed on to the new owner. For full conditions, please refer to our website: www.ideal-standard.co.uk/guarantee.aspx.

Ideal Standard pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice. While great care has been taken to ensure accuracy of all prices, product codes, descriptions and dimensions, Ideal Standard reserves the right to correct errors or misprints.
